What is an M6Toll TAG?

Easy & Efficient.

Tags are the M6Toll's electronic payment system. The TAG is attached to the vehicle windscreen and is read by equipment at the front of the toll lane.

The TAG contains a microchip that is automatically read on entry into a dedicated TAG lane.

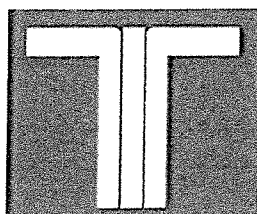

Providing there is credit on your account you will hear a beep, this will allow a green traffic light to be displayed by the exit barrier, the barrier will rise allowing you to proceed without the need for you to stop and pay.

The toll fee is automatically deducted from your account.

Dedicated TAG lanes.

As a TAG customer you have the advantage of using dedicated TAG lanes at all our Toll Plazas.

Just look for this Symbol on approach to the toll lanes.
